HOLY MATRIMONY

When Jesus elevated matrimony to the dignity of a sacrament He was doing something completely unprecedented. The transformation might be likened to the time in Cana when He changed the water into wine.

Behold I make all things new.

Christ elevated the natural reality of Christian marriage to a supernatural plane.

Those who marry begin a new life in the company of the Lord.

The ideal proposed by Christ to married couples is infinitely greater than that of human perfection. It is a totally new concept. It literally means that the spouses receive divine life through the sacrament. This is what sustains their work of mutual perfection. He fills the souls of husband and wife and invites them to follow Him. He transforms their whole married life into an occasion for God's presence on earth. The faithfulness of human love is all the greater when it dwells within the love of God which is always faithful.

The dignity and stability of marriage is of the greatest importance to the future of families, of children and of society itself. The moral health of peoples is closely tied to the condition of matrimony. This is why we need to pray for and take care of families.

Faithful marriages are true witnesses, lighthouses of hope, beaming a vision of God's love to people all around.
